

X8 TONDA - TOP SIZES BOX 15

The **X8 Tonda** is a fully customisable table base designed for easy installation. The kit includes a round weighted base, a column, and either a top fixing plate or cruciform depending on your chosen configuration.

For stability and safety reasons, tabletops cannot exceed 800mm (square or round) when paired with a 500mm base or 1000mm and above (square or round) with a 600mm base.

For example, a 1000x1000mm tabletop should not be used with a 500mm base. These limitations are in place to ensure structural integrity and user safety. We have created the following table for the maximum top sizes to assist you in choosing the best options to suit your requirements (any smaller dimensions will be suitable).

MAX top sizes		Coffee Height		Desk Height		Poseur Height	
		Round	Square	Round	Square	Round	Square
266 x 266mm Fixing Plate	500mm Base	Ø800mm	800 x 800mm	Ø800mm	800 x 800mm	Ø800mm	800 x 800mm
	600mm Base	Ø1000mm	1000 x 1000mm	Ø1000mm	1000 x 1000mm	Ø1000mm	1000 x 1000mm
700 x 700 Cruciform	700mm Base	Ø1200mm	1200 x 1200mm	Ø1200mm	1200 x 1200mm	Ø1000mm	1000 x 1000mm

Please note: This information serves as a guideline, and we recommend conducting your own stability assessments based on specific usage conditions.
